STAR STA-FLEX

RUBBERIZED COLD POUR CRACK FILLER

DESCRIPTION

STAR STA-FLEX is an asphalt emulsion-based crack filler that effectively seals the cracks in the pavement and protects them from the damaging elements of the weather. Fortified with polymers and select mineral fillers, STAR STA-FLEX stays tough and flexible throughout the service life of the pavement.

PRODUCT BENEFITS

- **COLD POUR APPLICATION** - Does not need heating before application. It is based on asphalt emulsion.
- **TOUGH FLEXIBLE & DURABLE STAR STA-FLEX is RUBBERIZED** using high-molecular weight polymers.
- **READY-TO-USE** - Apply direct from container. No mixing is required.
- **EASY TO APPLY & CLEAN UP** - Clean up with water. **SAFETY** - No burns or hazardous fumes.

DILUTION : No dilution is required as the product is supplied in ready to use form.

APPLICATION : Spout or controlled pouring device.

RECOMMENDED USES: For filling cracks in the pavement, up to a maximum width of 3/8 inch.

COVERAGE : One gallon will fill approximately 100 linear feet of crack, 3/8 inch wide and 1/2 inch deep.

APPLICATION DETAILS

1. Remove and clean all the dirt and foreign materials from the crack.
2. Shake or stir the contents in the STAR STA-FLEX container.
3. Pour the STAR STA-FLEX in the clean and dry cracks to the surface level. Repeat the process if the cracks **are** too deep and/or wide.

PRECAUTIONS

- Do not use if rain is imminent within 8 hours.
- Do not use if ambient and/or surface temperature are below 50 Degrees F. Keep from freezing.
- Keep out of reach of children.

PACKAGING

1 gallon plastic jugs, 5 gallon pails and 55 gallon drums.

SHIPPING POINT

Columbus, Ohio and STAR plant locations throughout the continental U. S .A .

WARRANTY AND DISCLAIMER - These suggestions and data are based on information we believe to be reliable. They are offered in good faith, but without guarantee, as conditions and methods of use of our products are beyond our control.
